

THE LEU STORY: BATTERY SELECTION, MADE EASY

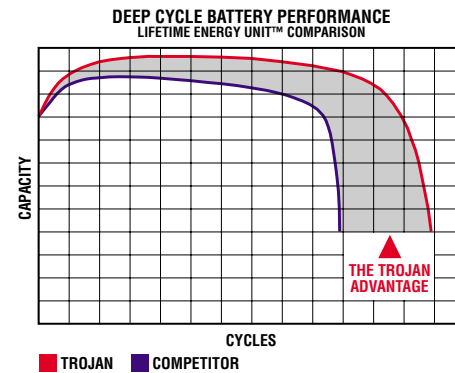

Choosing a deep cycle battery should not be a complicated process. To make things simple, Trojan Battery Company pioneered a new tool called Lifetime Energy Units™ - LEUs for short. Here is how this new concept works for you...

Engineers know the value of a battery is based on the total energy it contains. They measure this in kilowatt-hours. Now, Trojan has replaced these calculations and graphs with a single number. Lifetime Energy Units are an accurate, convenient way to compare the relative value of one deep cycle battery to another. Simply stated, Lifetime Energy Units signify the number of kilowatt-hours of energy a battery delivers over its useful life. The bigger the number, the more work the battery can perform.

The Trojan Advantage

Ordinary deep cycle batteries rapidly degrade. Over the long haul, Trojan deep cycle batteries deliver more performance and value. We call that difference the Trojan Advantage.

PRODUCT SPECIFICATIONS

Type	LEUs ¹	Reserve Capacity			20 Hour Rate AH	5 Hour Rate ² AH	Overall Dimensions inches (mm)			Approx. Weight lbs. (kg.)	Color Cover/Case
		Minutes @ 25 Amps	Minutes @ 56 Amps	Minutes @ 75 Amps			Length	Width	Height		
DEEP CYCLE 6 VOLT BATTERIES											
T-605	383	383	-	105	190	155	10 3/8 (264)	7 1/8 (181)	11 3/16 (284)	58 (26)	MAR/MAR
T-105	438	447	-	115	225	171	10 3/8 (264)	7 1/8 (181)	11 3/16 (284)	62 (28)	MAR/MAR
T-125	492	488	-	132	235	192	10 3/8 (264)	7 1/8 (181)	11 3/16 (284)	66 (30)	MAR/MAR
T-145	673	530	-	145	244	209	10 3/8 (264)	7 1/8 (181)	11 1/2 (292)	72 (33)	MAR/MAR
DEEP CYCLE 8 VOLT BATTERIES											
T-875	438	295	117	75	150	143	10 3/8 (264)	7 1/8 (181)	11 3/16 (284)	63 (29)	MAR/MAR
T-890	511	340	132	90	165	146	10 3/8 (264)	7 1/8 (181)	11 3/16 (284)	69 (31)	MAR/MAR

¹Lifetime Energy Units.
²Based on IEC (International Electrotechnical Commission) temperature standard of 30°C (86°F).

How To APPLY EVERYTHING WE'VE LEARNED.

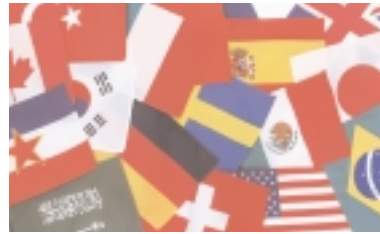

12380 Clark Street, Santa Fe Springs, CA 90670. Phone: 562-946-8381, 800-423-6569, Fax: 562-906-4033.

In Georgia: 770-981-8674, 800-246-2550, Fax: 770-981-7717. www.trojanbattery.com

Trojan manufactures specialty deep cycle batteries for a variety of applications, including golf, floor machine, marine, RV, EV, aerial work platform, medical/mobility and renewable energy. **Trojan-Your Lifetime Energy Source™**

TROJAN MAROON HAS A WORLD OF APPLICATION EXPERIENCE BEHIND IT.

You'll find our deep cycle batteries on the set in Hollywood, driving camera booms to pack more thrills into action/adventure movies. We're also keeping floor machines at work through the night in Buenos Aires high rise office buildings. Turning on the TV so a shepherd in Mongolia can watch soap operas. Powering Voyager, a sleek electric craft built to set international records. Positioning a scissor lift so a renowned artist can create a wall mural for posterity. And adding to the reliability of renewable energy systems the world over.

That's just scratching the surface. Trojan powers Golf cars. RVs. EVs. Utility vehicles. Telescopic booms. Fresh and salt water boats. Floor machines. Renewable energy sources. Aerial lifts. Pallet jacks. Whatever's new. Whatever's next. Whatever needs reliable, dependable heavy service deep cycle batteries and the extra value that's so typically Trojan.

Ask for Trojan by name. Or by color. Our batteries are always easy to find. For the nearest Trojan Master Distributor, call 800-423-6569. Or visit us on the web at www.trojanbattery.com.

#1 since '52.
We applied deep cycle technology to the first electric golf car in 1952 and have been #1 in golf car batteries ever since. Trojan is #1 with original equipment manufacturers and we're committed to stay that way.

The Trojan T-105.
It's been called the most versatile battery ever made. (Judging from the sales charts, you won't get any argument from us.)

Our proprietary Maxguard™ Advanced Design Separator.
Provides superior electrolyte distribution. Reduces positive shedding. Requires less maintenance. Result? Better value batteries that last longer.

Pasting the competition.
Our exclusive Alpha Plus™ paste formula increases battery life by creating a stronger and more conductive active material structure.

Calling all entrepreneurs.
While entrepreneurs are supplying the imagination for new products, our deep cycle batteries are supplying the power. We maintain a separate R&D facility, staff and phone lines to answer questions and help with your product development.

BIG IDEA, SMALL WORLD.

From an entrepreneurial company started by two brothers-in-law, Trojan Battery Company has grown into a global force. Our batteries work on construction sites, golf courses and everything in between.

Did you say 8 volt? Look to our T-875 and T-890 for long-lasting continuous power.

USE AND APPLICATIONS: A MEDLEY OF OUR HITS.

At Trojan Battery, we specialize in a certain kind of technology: The kind that works. At its inception, nearly 50 years ago, our technology served as the perfect solution for the heavy-duty demands of the golf market. Today, it's the perfect solution for a variety of industries, inventors, entrepreneurs and individual customers who know a good idea when they see one. Does our blue chip, deep cycle technology apply to what you're doing? There's an easy way to find out. Call.
