The compact GPS Navigator

The Geko series follows in the footsteps of Garmin's successful eTrex product range.

These Gekos are compact, waterproof and have a user-friendly interface with features such as 'one-touch waypoint marking'. These products however, are slimmer and lighter than the eTrex family, feature front-button functionality and operate on two AAA batteries

The compact GPS Navigator

The Geko 101 is the perfect low-cost device for navigational novices. It has five buttons, (Up/Zoom-out, Down/Zoom-in, OK, Page, and Power/Backlight) for easy one-hand use. Also featuring a 250 waypoint storage capacity with graphic identification to mark campsites, parking spots and specific locations.

The Geko 201 is for adventurers who want to graduate up to the next level of outdoor navigation. This powerful device has the basic functions of the Geko 101 with an added user-configurable trip computer and 10,000 log points for auto recording of electronic 'breadcrumb trails'.

The Geko 201 is also packed with several games that transform the great outdoors into a virtual board game. Chase a virtual lizard into Geko Smak, match symbols in a grid version of Memory Race, navigate to reference points without crossing one's trail in Nibbons, and collect symbols along a path in Virtual Maze.

The Geko 301 has all the features of the Geko 201, plus an electronic compass and barometric altimeter. The compass provides a bearing while standing still, and the altimeter determines your precise altitude and provides a 12 hour pressure-trend tool for gauging changing weather conditions.

The Geko 301 also includes an extra interactive game, Gekoids, which takes advantage of the electronic compass.

Features include:

- ★ **Accuracy:** 14 metres or less
- ★ **Compact size:** 100 mm (H) x 47 mm (W) x 25 mm (D).
- ★ **Weight:** Only 88 grams with batteries, (Geko 101/201), 96.5 grams (Geko 301).
- ★ **Screen size:** 46 mm (diagonal)
- ★ **Screen resolution:** 100 (H) x 64 (W) pixel count.
- ★ **Battery life:** Up to 12 hours (Geko 101/201), 16 hours (Geko 301) with typical use, on two AAA batteries.
- ★ **Waypoint/route storage:** 250/0 (Geko 101) 500/20 (Geko 201/301)
- ★ **Auto track storage:** 3,000 trackpoints (Geko 101) 10,000 trackpoints and 10 saved tracks (Geko 201/301).
- ★ **Trip Odometer functions:** Average/maximum speed; average/maximum distance; total trip time.
- ★ **Waterproof construction:** Submersible for 30 minutes in one meter of water (IPX-7 standards).
- ★ **WGS84, AGD66, AGD84, GDA and NZ Mapping Grid included.**
- ★ **Built-in electronic compass:** (Geko 301 only), with barometric altimeter.
- ★ **External port:** For PC connectivity and external power, (Geko 201/301 only).
